

Recommended Canopy Size

Standard Fitting pack volume represented by these sample groups should be considered optimum recommended pack volumes to ensure proper fit, function and ease of packing.

Loose Fitting pack volume represented by these sample groups should be considered the minimum recommended pack volumes to ensure proper fit, function.

Full Fitting Do to different canopies designs and materiel bulk some canopies have slightly larger pack volume. These canopies have the largest pack volume that can fit in this container and still maintain proper fit and function.

this chart are intended to represent a group of common canopies suitable for each container size. Any canopy type with similar pack volume as the sample group will naturally be suitable for the same container. Brands appearing in this chart are in no particular way more suitable for our Vector containers over brands not listed.

Please contact United Parachute Technologies at upt@uptvector.com. This e-mail address is being protected from spam bots, you need JavaScript enabled to view it to inquire about a canopy not listed here or if you have any other questions about sizing your rig. If you feel that a canopy not listed below fits into a particular container, please let us know and we will be happy to add it to our list should we feel the fit is acceptable for all our customers.
