

Sun Path Products Inc. 404 W Edinborough Ave. Raeford, NC 28376 (910) 875-9002

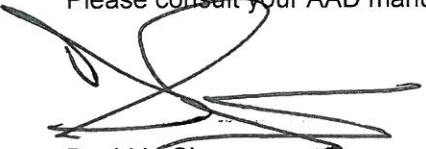

2 April 2013

Sun Path Products, Inc. has completed PIA TS112 testing and overall fit evaluations on the following currently available automatic activation devices (AAD) to determine compatibility with all Javelin and Javelin Odyssey harness/container systems. The following AAD devices are authorized for installation and, based upon our limited testing, have been determined to not interfere with the normal manual operation of our harness/container systems, when properly installed,

Manufacturer	Model
Airtec	CYPRES (student, expert)
Airtec	CYPRES 2 (student, expert, speed)
Advanced Aerospace Designs	Vigil
Advanced Aerospace Designs	Vigil 2
MarS	M2

Sun Path Products Inc. does NOT consider any factors related to AAD operational reliability during its tests and makes no claim, representation or judgment as to the reliability of any device not manufactured by Sun Path Products, Inc., including AADs. BY CHOOSING TO INSTALL AN AAD ON A HARNESS/CONTAINER SYSTEM MANUFACTURED BY SUN PATH PRODUCTS, INC., THE USER ASSUMES ANY AND ALL RISK AND LIABILITY FOR INJURY OR DEATH ASSOCIATED WITH THE INSTALLATION AND USE, NON-USE, FUNCTION AND/OR NON-FUNCTION OF SUCH DEVICES AND MUST DO SO WITH FULL UNDERSTANDING OF THE RISKS INVOLVED IN INSTALLATION OF ANY AAD.

Please consult your AAD manufacturer for test results pertaining to reliability and functional consistency.
