Technical notice TM-2024-01\_EN

**RE: Lead Parachutes Seals Alternatives**

To whom it may concern,

PARATEC Fallschirmbau – Technik – Service – Vertrieb GmbH approves the use of alternatives to lead seals in the sealing of the reserve closing loop on all PARATEC harness/container systems.

Plastic and paper seals are compatible with all PARATEC harness/container systems when used in conjunction with the same 4.75-pound cotton break thread and sealing methods currently specified.

For more information, please reference PIA Technical Bulletin TB-266 on the development of this decision.
